The website services have returned to normal operation

September 27, 2026

Amman Stock Exchange announces that the technical issue that temporarily affected some of the electronic services, including the website and the market watch (ASE Live), and the mobile application (Boursa) has been rectified, and these services have resumed normal operation.

The ASE emphasizes that this technical issue did not affect the trading session, as trading activities continued as usual throughout the outage period.

We thank you for your understanding and cooperation
